## CAREER OBJECTIVE

Graduate student with problem-solving skills and ability to work in small teams, seeking a position in the field of software developing where I can utilise my skills to further work towards personal and professional development and contribute towards the prosperity of the organisation.

## WORK EXPERIENCE

### Front- End Developer Intern

*PSYCH PRESS Melbourne 03/2020 - 07/2020*

#### Key Responsibilities & Achievements

- Implemented reusable components which helped save development time and budget for our team.
- Collaborated with product team members to implement new feature development.
- Working in the agile/scrum development environment with frequently changing requirements and actively participating in scrum meetings and reviews.
- Developed a responsive single page app for our new project with React and Material UI.

### Freelance Web developer

*Personal Projects Melbourne 08/2020 - 12/2020*

- Refined and extend my web development skills by doing projects-based practices.
- Designing and styling websites with Styled components to improve customer experience.
- Built a responsive e-commerce web app with React and React Hooks to sell furniture.
- Developed app integration with REST / SOAP and other APIs, social media logins, payment processors (use Strap), and other services.
- Built a blog system with authentication capabilities with Python and Django, as well as PostgreSQL.
- Improved accessibility to make websites more friendly to people with disabilities.
- Made websites easier to manage, maintain and debug by using state management tool like Redux.
